## **COMPANY'S PROFILE:**

GUJARAT RAFIA INDUSTRIES LIMITED is an Indian Manufacturing Company incorporated and established in Gujarat, near major sea ports. The Company was founded in 1984. GRIL Industry is one of the major Manufacturers of - GRIL Tarpaulins/Plastic Sheeting/Ground Sheeting, GRIL Agromat Pond Lining (Geomembrane)/GRIL Canal Lining, GRIL Tents, GRIL Fumigation Covers, GRIL Wagon Covers, GRIL Weed Mats, GRIL Grow Bags, GRIL PP Woven Bags, GRIL Ropes. The Industry has all the latest manufacturing facilities and has top quality measures for good working environment.

## **FROM DIRECTORS DESK:**

- We at Gujarat Raffia Industries Limited are committed to manufacture HDPE Tarpaulin, PP Bags & allied products by meeting the customer specifications, with in stipulated time with cost effectiveness.
- At GRIL Industry every process of manufacturing is good quality, on time delivery & great customer service.
- The policy at GRIL Industry involves re-engineering business processes to take advantages of enormous product competencies and no-compromise on quality consciousness.
- We offer our customers value for money, **global** market competition and **international** quality products.
- Perfection of quality is our motto; as we believe in growth by keeping in mind both product innovation and quality at a regular basis.
- To sustain this initiative of **international** standard quality of our products and reaching out to new heights in highly competitive **world** market, GRIL group has established a strong research base and always up-grade the trade and technology to up-hold the ideology and values.
- Our mission is to get recognized as one of the best and affordable brands by delivering quality products at best prices and produce products that are convenient, economical and easily available to our customers. GRIL Industries has introduced an extensive range of protected Agro and Industrial techniques and innovative products over the years with an objective to improve Agro and Industrial productivity and quality to increase **agro**income.

## **OUR TEAM:**

GRIL Industries has a diversified and highly skilled pool of employees for production, quality control, marketing and sales activities. We focus on developing an interactive relationship with our customers, yielding dedicated customer service, persistent research and development for product improvement, with the zeal to continue to explore newer opportunities to expand our product range.

## **INFRASTRUCTURE:**

The Industry is located in lush green Industrial area on a land measuring **28500** Sq.yds near major Sea ports. The industry has latest manufacturing facilities and has top quality safety measure for good working environment.

Also GRIL Industry has a well equipped testing laboratory and R & D Centre. Each and every products are tested there for full quality norms and end-users Satisfaction.

## **GRIL TARPULIN:**

### **Features:**

Heavy duty, Rust resistant grommets on sides and corners.

Rope reinforced edges.

Tear Proof – Shrink Proof – Root Proof.

All weather resistant, U.V Treated.

Flame Retardant.

Easy to clean and use.

Our product conforms to ASTM, MSF and ISI Standards.

Tarpaulins are available in the range – 80 GSM, 90 GSM, 110 GSM, 120 GSM, 140 GSM, 150GSM, 170 GSM, 180 GSM, 200 GSM, 225 GSM, 250 GSM, 280 GSM, 340 GSM & 420 GSM.

### **Ideal For:**

Cover: To protect Boats, Automotives, Swimming pools, Snowmobiles, Machinery, Construction sites, Transportation, Lumber, Grain, Build Temporary Storage.

Camping: Tents, Ground Sheets.

### **Recreation:**

- ◆ Picnic Mats, Bench Mats, Privacy Walls, Wind Protection and many other house hold uses.
- ◆ Transportation – Cover for Road Transportation, Rail Transportation etc.
- ◆ Fumigation Cover.
- ◆ Construction Sites.
- ◆ Wind Break for Poultry Farms.
- ◆ Utility cover for anything you want. Chair Cover.
- ◆ Ground Sheet for Recreation.
- ◆ Canalling.
- ◆ Making Tents of any type for Recreation, Temporary Shelter etc.
- ◆ Automotive Covers.

## GRIL AGRO MAT POND LINER (GEOMEMBRANE):

Basically this product is very important in today's World. It helps in water conservation. Further stored water can be used for agriculture without depending on the monsoon rain. It is also used in Aquaculture Industry to prevent saline water from entering the neighboring fields. An impermeable Pond lining is used for water retention, including the lining of lakes, garden ponds and artificial streams in parks and gardens.

### 4 MTR WIDTH WITHOUT JOINT

Agro mat is certified by ISI 15351 : 2015 License No. CM/L - 3680871 Approved by the Bureau of Indian Standards.

Agro mat is revolutionary 4 meter width Pond liner that ensures maximum hydrostatic protection in all climates and environment for all type of containment applications where liquid containment is critical. Agro Mat is also designed that it can long last in extreme conditions with effortless installation. Above ground storage tanks, irrigation, pond, canal, basin and other lining, water flow redirection, fisheries, potable water containment and many other use.

### **Features & Benefits:**

- Agro Mat revolutionary technique provides superior characteristics & ensures minimal stress cracking.
- The hi-tech layered construction will provides protection from unequal mechanical strength, tear & puncture.
- The light weight product ensure easy installations at large pre-fabricated panel.
- The high strength HDPE Woven core provides protection from puncture, abrasion & chemical results in high dimensional stability.
- Outstanding UV, Ozone & Oxidation resistance.
- No hazardous material is used in construction of fabric.
- Least permeance of water vapor.

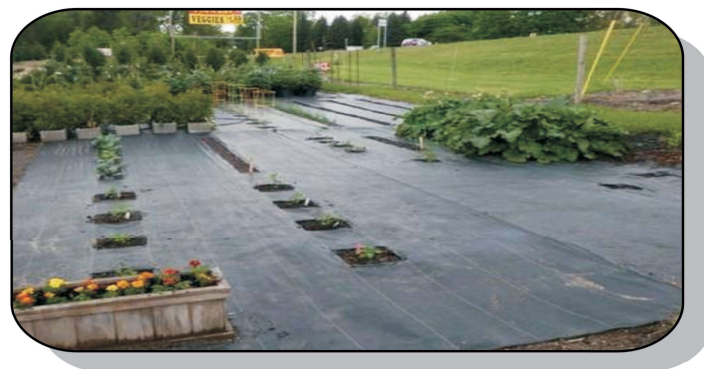

### **Applications:**

Above ground tracking tanks, liquid containment, golf course ponds, retention ponds, irrigation reservoirs and canals, aquaculture liners, agricultural ponds, pond liners, covers – agricultural, soil, manure, salt and general purpose, waste water lagoons, interim covers, heavy – duty liners and covers, environmental protection, landfill covers and liners, spill containment, remediation and more.

### **GRIL WEED MAT: (HDPE/PP WEED MAT)**

GRIL Weed Mats are ideal in preventing growth of weeds in nursery, grape beds etc. The feature of U.V. stabilizers added to weed mats ensures long life & durability.

The Weed mats are most suitable in countering weed menace and also saves the grower huge expenses in labor & maintenance charges. It is available in the standard size of 4.2 M (width) x 100 M (length) and 2 M (width) x 100 M (length).

## **GRIL WAGON COVER:**

We are among the trusted manufacturer, exporter and supplier of a wide range of Tarpaulin Cover for Railway Wagon & Truck Wagon Cover. Offered range is precisely manufactured using fine quality basic material, procured from the certified vendors.

## **Features:**

100% waterproof, Ability to withstand winds and harsh climatic conditions & High durability.

## **GRIL FUMIGATION COVER:**

HDPE fumigation covers are used to store food grains for a longer period of time. ... This covers are used to store million tons of food grain with chemically treated to protect against insects, rodents, pests etc in open field.

Fumigation is carried out to kill the insects with Aluminum Phosphate tablets for 5-7 days. Tablet reacts with moisture and Phosphate gas is generated which kills the insects, once in three months or as and when infestation occurs.

## **ADVANTAGES:**

- . 100% insect mortality.
- . Maintains the quality of grains for longer durations.
- . Durable fabric lasts longer.

## **GRILTENTS:**

Tarpaulin tent also called as tarp tent is the best material as compared to other materials.

This is because quality HDPE tarpaulin material has favorable features that offer excellent protection and safety after tenting.

This material is resistant to weather and they offer reliable shelter in the harsh weather conditions such as rain, snow, wind, sunlight and cold temperatures.

They are not just weather resistant but also water proof. They are also leak proof and UV resistant.

They are easy to fold and carry because they are flexible and light in weight. They have excellent durability and can be reused over & over for long durations of time.

Our high quality HDPE tarpaulin rolls are most popular among the tent manufacturers due to their supreme quality & availability in different sizes and GSM.

We supply our products to various NGO's like UNICEF, OXFAM, UNHCR, ICRC, IOM etc.

## **GRIL GROWBAGS:**

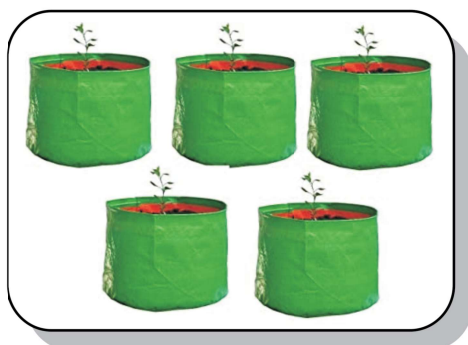

1. Grow Bags are generally used in terrace gardening or nursery.
2. They are plastic bags filled with the growing medium used for growing plants such as tomatoes, mints, etc.
3. Grow bags are lighter than the clay pots and are more durable.
4. They are made up with a combination of flexible material with tough construction to sustain the atmospheric exposure.
5. Grow bags regulate temperature due to their breathable quality.
6. Excess heat is able to escape from all sides of the grow bag.

## **ADVANTAGE:**

- Light weight, tough material.
- Prevents over watering, as water can get percolated through the fabric.
- Easy to handle and easy to store.
- Easy to repair and maintain.

## **PRODUCT RANGE:**

- **Brand:** GRIL Grow Bags
- **Size Range:** 9" X 12", 12" X 12", 12" X 18"

## **GRIL PP BAGS:**

- We are one of the noted manufacture and suppliers of a wide gamut of plastic packaging products like bag.
- Our packing bags are offered in attractive designs and colors that fulfills the bread demands of the industry.
- These bags are manufactured using high quality high density polyethylene / polypropylene that are sourced from the noted vendors of the industry.
- Our polymer bags are appreciated for the features like high lead bearing strength moist resistance and light weight.
- We have engaged highly competent professionals that make packing bags in customized specifications.
- PP bags are widely used for packing of industrial products like fertilizers, seeds, cement, insecticides, proper rolls and many more.
- Different types of printing and sewing machines are used for design of plastic bags.
- Due to leak resistant property, plastic bags are also used for packing of edible oils, paints, cosmetic products and many more.
- Our plastic bags are offered in different forms like valve, sling, baffle and top bottom spout.
- We manufacture plastic products in total compliance of the industry specific quality norms.
- Our company has established a vast distirbution network that helps us timely delivery of all plastic bags.
- We continuously innovate new product designs to improve the efficiency of our all plastic bags.

## APPLICATION AREAS:

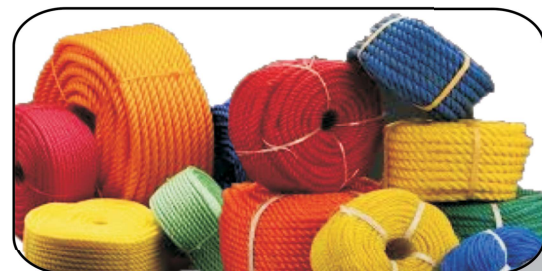

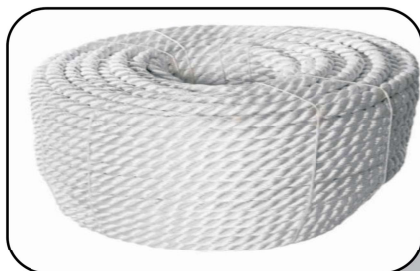

- Sand
- Sugar
- Fish
- Agro products
- Rubber and many more
- Cattle feed
- Food grains
- Pulses
- Spices
- Dates
- Minerals
- Resin
- Polymers

## GRIL ROPES:

Polypropylene Ropes are made from high quality polypropylene (PP) and are a perfect choice for numerous applications.

Rope is used for many things in the outdoors. Anchors, rigging, hunting, tie downs...you name it, rope can probably help you out somehow. What most people don't realize though is that rope can be used for countless, everyday applications around your house.

## PRODUCTS

- GRIL ROPE.
- GRIL TRANSPORT ROPE.
- GRIL SUBMERSIBLE.
- GRIL FISHING ROPE
- GRIL SUGAR CANE ROPE.
- GRIL MARINE ROPE.
- GRIL INDUSTRIAL ROPE.
- GRIL AGRICULTURE ROPE.
- GRIL SAFETY NET ROPE.
